

## Research Exhibition site

### Resource title

Action Research Pearltree

### Author/s

CETTa Academy (previously known as emCETT)

### Description

An Action Research Pearltree created as part of the Foundation's 'Practitioner-Led Action Research' programme (2013 - 2015) to help practitioners find their way around the many web pages covering the theory and practice of action research.

Pearltrees is an online web application which as well as storing hyperlinks, allows you to add documents, notes and links to other Pearltrees, all of which are organised into sections. Sections include:

- What is Action Research?
- Research paper and reports
- Types of action research
- Online Research Sources
