DVD

Bromley Cluster: The Value of Partnership Working

Summary

This DVD was developed by Bromley College and Nash College, Riverside School, Marjorie McClure School, Glebe School, and Bromley Borough Council as well as College students, parents and staff. The DVD was developed to demonstrate the impact made by this group of school and college managers along with Bromley Borough Council in working together to improve the transition from school to college and to make significant steps forward in putting together the local offer. It includes interviews with cluster partners designed to capture their views and to capture a sense of the journey of the life of the project.

The DVD will be of interest to Further Education colleges, special schools and parent groups who are going through a similar period of change and will be available to view on Bromley College website from August 2013.

It will also be able to be used as a resource for young people and their families to demonstrate the developments that have taken place in the local offer.
