Promoting Communication skills through Technical Routes

Working in Childcare

Read and understand technical vocabulary to be health and safety aware.

Communicate with children, parents and colleagues on a daily basis.

Write formal records of activites and children's progress.

Write a play suitable for children using creative descriptive language.

Explain the meanings of new words to children using appropriate vocabulary.

Make significant contributions to **discussion** in meetings about care plans and case files.

Write an email or letter to keep parents/guardians informed.

Deliver accurate and professional presentations.

Read a story to children using suitable language.
