

## **Maslow's Hierarchy of Needs**

Key:

	Terms that can be applied to more than one level in the diagram below
	Terms that Level 2 learners will be familiar with
	Additional terms applicable for L3 learners

This document supports the interactive activity on Maslow's Hierarchy of Needs. The activity has been developed from the work of learners at Barnfield College. Learners are encouraged to attempt the activity independently, print out their diagram and discuss with their teacher, trainer or tutor, their reasons for assigning the terms to particular levels. The outcomes from the activity can enable teachers, trainers or tutors to have learning conversations with their learners to develop individual learning plans (ILPs).
