- Professional institute recognition
- Industry relevant qualifications
- Highly skilled employees
- High skills development
- Future proof your business
- Specialist pathways
- Training matches business values
- First class service
- Grants available
- Black CSCS card eligible

Sustainable Built Environment Higher Apprenticeship

This Apprenticeship provides the vocational knowledge and skills necessary to those pursuing a career in a variety of disciplines including architecture, surveying, planning, maintenance, construction management, building services or civil engineering.

You will have the opportunity to apply critical reasoning and analysis techniques to solve built environment and engineering problems, using industry standards, appropriate codes of practice and work-based evidence; developing personal and business skills, which will enable you to contribute to the demands of a professional environment.

There are 3 pathways available so you can specialise in Construction & the Built Environment, Building Services Engineering or Civil Engineering.

Qualification:

Level 5 NVQ Diploma Construction Management (Sustainability)
BTEC Level 5 HND Diploma Construction & the Built Environment
Functional Skills/English & Maths/PLTS & ERR

Course Length:

1- 3 years

Minimum duration 18 months with HNC (1 year for HND/18 months for NVQ)

Entry Requirements:

We would accept a BTEC Extended Diploma, Diploma or Subsidiary Diploma or a Level 3 Advanced Apprenticeship. One A Level Grade C or above or two at E grade. (UCAS tariff 80 points) or any other equivalent qualifications.

Course Fees:

£2,500 - if you already have a HNC Construction Built Environment

£2,500 - per year for 3 years for candidates entering with a level 3 qualification, giving a total cost of £7,500
