

Learner and Learning Support

Havering College of Further and Higher Education,
Parents of Autistic Children Together (PACT),
Havering Borough Council, Corbets Tey School,
Ravensbourne School and MyPlace (youth
services facility)

Summary

This DVD was developed by Havering College of Further and Higher Education, Parents of Autistic Children Together (PACT), Havering Borough Council, Corbets Tey School, Ravensbourne School and MyPlace (youth services facility). It presents the post-16 provision for learners with learning difficulties and/or disabilities in the London Borough of Havering in a way which is accessible to parents and learners. In particular, it addresses the concerns that many parents and young people have about the transition from special school to college, including their safety and security, what will happen at lunch time, and how they will spend their time at college. The filming and narration was done by a volunteer from PACT, a young man with autism and great media skills. The DVD will be of interest to FE colleges, special schools and parent groups who are looking to make transition a more positive experience.
