

HO5: Football Shirts

Jas wants to order new shirts for his football team – but he doesn't know how many he will need for next season.

He sees the following advertisements for two printing companies, 'PRINT IT' and 'TOP PRINT'.

Jas doesn't know which company to choose.

PRINT IT

Get your football shirts printed with your own team names here.

Only £14 per shirt.

TOP PRINT

We will print your football shirts - just supply us with your design.

Pay a one-off setting up cost of £30; we will then print each jersey for only £12!

Give Jas some advice on which company he should buy from.

When should he choose 'PRINT IT'? When should he choose 'TOP PRINT'?

Explain your answer fully.
