

## Card games for two to six players

Soil works is a card activity for 2-6 players designed to help learners understand the characteristics of the main components of soil. It comes as a pack of cards organised into five suits, each of which has 13 cards.

The suits are:

- Clay
- Silt
- Sand
- Living organisms
- Organic particles

## Rules for Soilitaire

- Lay out all the cards face down on the table. Decide who will play first.
- The first player picks up three cards. If they are all from one suit they place them as a set in front of them. If they are not from one suit they put them back in the same places they took them from.
- The next player does the same thing, using memory to help match the cards.
- Continue round the table.
- The winner is the first player to make two sets.
