

Roles, responsibilities and development needs

What CPD materials are available to support your organisation with embedding?

What are the responsibilities of individuals within your organisation and how do you support their development around embedding?

This group of CPD modules focuses on planning and delivering effective embedded teaching and learning. The sessions can be offered individually, as a package or mixed together in appropriate ways. For a more in-depth look at the modules and how an organisation might use them effectively to support and develop staff go to the [CPD Starter Kit](#).

CPD Modules:

[4a – Assessing Learner needs / strengths and target setting \(Part 1, Part 2, Part 3, Part 4\)](#)

[4b – Identifying underpinning LLN and developing schemes of work / assessment plans](#)

[4c – Session planning: approaches to supporting LLN needs](#)

[5a – Promoting active learning in embedded LLN](#)

How do you ensure that your teams access and effectively use materials that are available?

[CPD Module 5b – Using resources effectively to embed LLN](#) is a CPD module that aims to familiarise participants with how to access and use a range of resources so that they can plan effective embedded LLN activities that are engaging and meaningful.
