

**AIMS:**

- To maintain interest and widen understanding for projects.
- Review of action logs
- Identify any additional areas of research
- Begin research for projects

**ACTIONS:**

- To maintain interest the groups were shown Transition Network information and there was some discussion around this.

**GROUP TASKS:**

- Groups were encouraged to work within the LRC to progress their individual projects with assistance from teaching staff. For example....

- 

**Group One:**

- Draft letter to ASDA Manager
- Begin to think of questions for ASDA Manager
- Begin to draft a list of food items which can be identified as either UK or Foreign origin
- Consider a visit to the local store to carry out survey
- Begin to consider how final project will be presented

**Group Two:**

- Draft survey for staff and students into recycling habits
- Consider how to analyse and show results
- Draft letter to Stockton Borough Council to request a visit to a recycling plant for whole class
- Begin to consider how final project will be presented

**Group Three:**

- Draft questionnaire for local farming shops
- Begin to research locally or UK farmed foods on-line
- Consider how to analyse and show results
- Begin to consider how final project will be presented

**Group Four:**

- Begin on-line research to:
  - identify appropriate statistics,
  - effects of climate change globally and in the UK,
  - what is being done nationally, globally to combat climate change,
  - what we can do as individuals to combat climate change.
- Begin to consider how final project will be presented
